|---|---|
| **Objective** | To demonstrate technical, organizational, and interpersonal skills in order to obtain an internship in the Summer of 2018. |
| **Education** | **Bachelor of Science in Information Technology,** GPA 3.56/4.0<br>*Specialization in Web and Mobile Foundations*<br>Minor in Information Systems<br>Georgia Southern University**,** Statesboro, GA, December 2018 |

**Relevant Technical Experience**

*HTML5&CSS3*: Constructed web pages using various elements and attributes paired with external, embedded, and inline styles to order and arrange content.

*JavaScript (jQuery/Ajax/JSON)*: Created scripts to modify HTML and CSS, and validate forms using event handling. Communicated with external server scripts to update page content asynchronously. Pulled items out of JSON documents based on user searches.

*PHP*: Completed projects involving programming and content printing, 3-tier applications for web business transactions, and information storage though sessions cookies, and database queries.

*Python*: Solved programming problems using basic object oriented programming concepts such as variable assignment, functions, loops, printing, and formatting.

*Java*: Applied basic object oriented programming concepts, classes, inheritance, polymorphism, and abstraction to complete various projects.

*SQL*: Created, deleted, retrieved, and updated tables and databases through various queries. Created users, logons, and views to restrict data access.

*Data Analytics*: Performed various operations on data sets using Excel, SAP Lumira, Presto, and APIs. Depending on the desired outcome, created visualizations and/or pivot tables to help highlight trends and areas of interest within the given data.

*VMware*: Virtualized various Windows and Linux versions, partitioned space and RAM, and set up servers to host web pages and databases.

*Photoshop*: Optimized photos for web pages, crafted composite photos, and created logos using various tools and effects.
